COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This communication is responsive to the Notice of Allowance dated March 2, 2006, concerning the above-referenced patent application.

The Examiner stated the following:

Claims 17-32 and 35-45 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 17, "a lighting system coupled to the frame and configured to illuminate a display which is separate from the cover when the cover is positioned to overlay the display". In claim 28, "the light guide is configured to direct light toward at least a portion of the display when the cover panel is positioned to overlay the display". In claim 28, "illuminating at least a portion of the display when the cover is positioned to overlay at least the portion of the display, wherein the cover does not include the display and the cover may be moved out of the way of the display". The closest prior art, Anzai et al. (6,259,597) discloses that during normal use the touch panel is rotated to overlay the display and when not in use, the touch panel does not overlay the display, however, singularly or in combination fails to anticipate or render the above underlined limitation obvious.
